

16/9 key and channel selection

VM-3500E features a uniquely designed waterproof microphone. Clear Voice, a VERTEX STANDARD innovation, provides the clearest possible transmission, by significantly reducing wind and engine background noise. In addition to its unique noise canceling capabilities, the VM-3500E's microphone features a speaker, up/down and 16/9-channel selection.

Scan/Priority, Dual Watch and more

Scanning is a breeze using the dedicated MEM key which allows selection of channels you want to scan. The VM-3500E can be setup to scan any number of channels with or without priority channel. Want to scan between the user selectable Priority channel and another channel, simply rotate the channel selector knob to the working channel and press the DW key. *These function may differ in some countries. Check with your local Dealer for specific details.
